## WC1 - Macerator

The Wasteflo WC1 macerator is the perfect choice when installing a toilet in virtually any situation. Its attractive and slim design is fully compatible with standard and slimline sanitaryware.

The slimline design of the Wasteflo macerator enables it to fit behind a WC whilst allowing the cistern to be fixed directly to the wall without the use of battens.

An innovative watertight cassette unit enables easy removal, cleaning and maintenance of the working parts without having to remove the WC, cistern or pipework.

### Features

- WC coupling features innovative inbuilt height adjustment ( $\pm 16$  mm) to accommodate variations in WC outlet position.
- Outlet - suitable for 32 mm, 28 mm or 22 mm waste pipe.
- Pumps up to 5 m vertically or 52 m horizontally.
- Maximum flow rate of 90 l/min.
- Complies with BS EN 12050.
- Typical 50 dB noise level.
- Supplied pre-wired with 1.5 m power cable.

### Application

- Macerators are a simple way to pump waste water from a sanitary appliance where there is no local access to a soil pipe.
